MEDITERRANEAN TILE

› *Color Featured:* ***Carbon***

Beauty and Style of Mediterranean Tile

Mediterranean Tile provides the classic scallop-style look without the shortcomings of conventional clay or concrete tiles.

Mediterranean Tile blends the strength and durability of stone-coated steel with timeless, scalloped beauty to elegantly stand up to hail, rain, fire, storm debris and even hurricane-force winds.

Conventional tiles fracture easily and over time can absorb moisture, adding unnecessary weight and stress on the roof's supporting structure. Hail, storm debris and even walking can cause damage to traditional clay tile roofs.
