Choose from
a variety of
color options.

THIS AIN'T YOUR GRANDPA'S TIN

5V Crimp metal roofing is a classic, versatile roofing option known for its distinct "V" ribs and clean, traditional look. Popular in both residential and agricultural settings, 5V Crimp offers a lightweight yet durable solution that withstands harsh weather conditions, including high winds and heavy rain.

Its exposed fastener design simplifies installation, making it a cost-effective choice for many applications. Available in a variety of colors and finishes, 5V Crimp combines aesthetic appeal with practical performance, ensuring long-lasting protection for any structure.
