color options.**

## SEAMLESS FINISH

SpeedLap Steel Soffit is a heavy duty, easy to install, metal soffit panel that is perfect for use in any soffit application. Manufactured in the United States from durable 29ga steel, and coated with high-quality Sherwin-Williams coatings, SpeedLap Steel Soffit is available in 36 different colors including smooth, textured, and wood-grain coatings. This easy-to-install metal soffit can be used as a vented or solid steel soffit solution for post-frame buildings, residential soffit, commercial soffit, and more.
